

It is ridiculous
that a media company
can attempt to
change the election
results by forcing
our television
channels to air what
amounts to a 60
minute political ad
during prime time.

Mr. Powell, who has
already angered many
citizens through his
advocacy of further
media consolidation,
by not condemning
Sinclair is clearly
demonstrating that
he surely has no
concern for the
public's interest to
diverse fair and
balanced opinions.

The recent election
in Russia is
considered by the UN
and independent
observers as a
farce, in no small
part due to the role
of the government
media in biasing the
electorate. How is
this different.

Sinclair should be
required to either
not air this
advertisement or air
a
pro-Kerry/anti-Bush
docu as well.
You are the FCC,
work for the
citizens of the
country for
once!!!!

Thank you.
